

for lab/Graphviz/include  
/graphviz/arith.h

```
graph TD; A["for lab/Graphviz/include<br>/graphviz/arith.h"] --> B["limits.h"]; A --> C["math.h"]
```

The diagram illustrates a file path expansion. A top box contains the full path 'for lab/Graphviz/include /graphviz/arith.h'. Two blue arrows point from this box to two separate bottom boxes, 'limits.h' and 'math.h', indicating that the path is being broken down into its constituent parts.

limits.h

math.h
